Quality Growth Strategy

BROOKMONT
CAPITAL MANAGEMENT

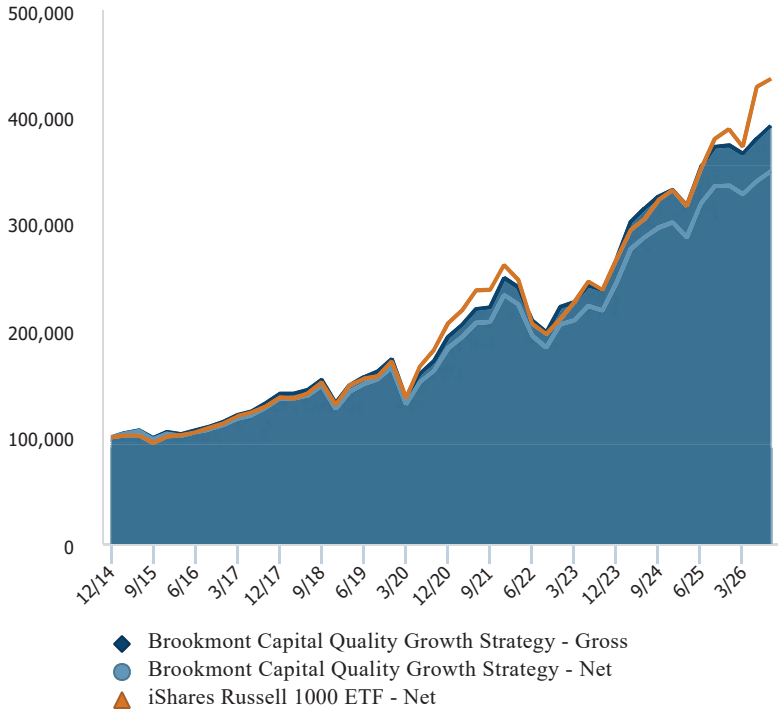

Portfolio Strategy

THE BROOKMONT QUALITY GROWTH STRATEGY is a total return portfolio of 30-50 common stocks that invests in equity securities that provide a moderate level of current income, an above-average capacity for income growth, and the potential for long-term capital gains with lower downside risks. The strategy typically invests in a majority of the economic sectors as defined by GICS.

Investment Process

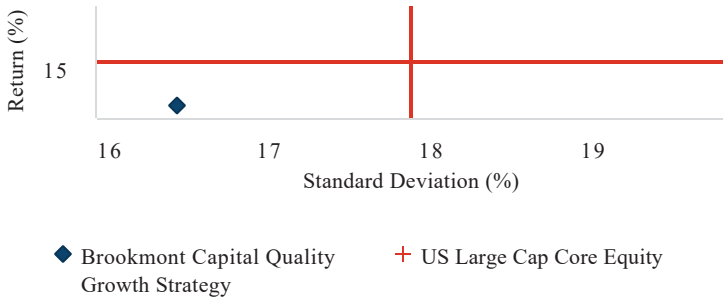

The firm utilizes its bottom-up process, which is facilitated by quantitative screenings of a 3 year compounded annual growth rate above 10% in Revenue, Adjusted EPS, and Operating Cash Flow. Further fundamental analysis is performed incorporating Brookmont's macro investment themes to arrive at our portfolio of 30-50 positions.

Cumulative Performance January 2015 - September 2026

Risk / Return

Risk vs. Return Analysis
Annualized Seven Years Periods
7 Years As Of: 9/30/2026

Portfolio Structure

- Typically between 30-50 holdings
- Maximum individual weighting of 5% or 1.25% above the company's weight in the benchmark.
- Strategy may invest in ADRs
- Low internal correlation between holdings
- Low turnover; typically 5%-20%
- +/- 5% of sector benchmark weighting

Brookmont Capital Management is a registered investment advisor that invests in domestic and global securities and is defined as an independent investment management firm that is not affiliated with any parent organizations. Brookmont Capital Management claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization nor does it warrant the accuracy or quality of the content contained herein. To receive a complete list and description of Brookmont's composites and a presentation that adheres to GIPS standards, please contact Suzie Begando at 214-953-0190 or write Brookmont Capital Management, 5950 Berkshire Lane Suite 1420, Dallas, TX 75225. Brookmont Capital Management does not provide comprehensive portfolio management services for investors who have not signed an Investment Management Agreement with our firm.

Certain economic and market information contained herein has been obtained from published sources prepared by other parties, which in certain cases has not been updated through the date of the distribution of this letter. While such sources are believed to be reliable for the purposes used herein, Brookmont does not assume any responsibility for the accuracy or completeness of such information. These individual securities do not represent all of the securities purchased, sold, or recommended for this Brookmont portfolio, and the reader should not assume that investments in the securities identified and discussed were or will be profitable. A complete description of Brookmont's performance calculation methodology, including a complete list of each security that contributed to the performance of this Brookmont portfolio, is available upon request.

The Brookmont Quality Growth Strategy returns are based on an asset-weighted composite of discretionary accounts that include 100% of the recommended holdings. Individual accounts will have varying returns, including those invested in the Strategy. The reasons for this include 1) the period of time in which the accounts are active, 2) the timing of contributions and withdrawals, 3) the account size, and 4) holding other securities that are not included in the Strategy. Dividends and capital gains are not reinvested. The Strategy does not utilize leverage or derivatives. Returns are based in U.S. dollars. The inception of the Strategy is January 1, 2015.

The Brookmont Quality Growth Strategy Composite contains fully discretionary accounts with similar value equity investment strategies and objectives. For comparison purposes, the Quality Growth Strategy Composite is measured against the iShares Russell 1000 ETF. The benchmark was changed on June 1, 2026, for all periods. The iShares Russell 1000 ETF is an exchange-traded fund designed to track the Russell 1000 Index, which represents large- and mid-capitalization U.S. companies. The fund provides broad exposure to the U.S. equity market and is commonly used as a core holding for investors seeking diversified access to established U.S. stocks. There is no representation that this index is an appropriate benchmark for such a comparison. The volatility of this ETF may be materially different from the performance of the strategy.

Brookmont's returns do include reinvestment of dividends and are shown gross-of-fees. All transaction costs are included. The iShares Russell 1000 ETF cumulative return includes reinvestment of dividends and capital gains. During a rising market, not reinvesting dividends could have a negative effect on cumulative returns. There is no representation that this index is an appropriate benchmark for such comparison. The volatility of this index may be materially different from the performance of the strategy.

Gross returns will be reduced by investment advisory fees and other expenses that may be incurred in the management of the account. Net-of-fees performance was calculated using actual management fees. Additional information regarding the policies for calculating and reporting returns is available upon request. Your account returns might vary from the composite's returns if you own securities that are not included in the Strategy or if your portfolio dollar-cost averaged into the Strategy during the reporting period.

The firm maintains a complete list and description of composites, which is available upon request. Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Composite policy requires the temporary removal of any portfolio incurring a client-initiated significant cash inflow or outflow of at least 15% of the portfolio assets. The temporary removal of such an account occurs at the beginning of the month in which the significant cash flow occurs, and the account re-enters the composite at the beginning of the month that follows the cash flow by at least 30 days. Additional information regarding the treatment of significant cash flows is available upon request.

The Brookmont Quality Growth Strategy is available through several institutional platforms and registered investment advisors that are not affiliated with Brookmont Capital Management. Required minimum investments and advisory fees differ from one firm to another.
